can i use motor/gear oil in my bearings? [Archive] - SkatersCafedo NOT use motor oil to lube your bearings, you will most likely regret it. I did it once when i had no speed cream and it seemed fine, but one of them soon "froze", basically it overheated and the bearing fused together, which rendered it worthlessGuide to Electric Motor Bearing Lubrication - MobilMobil's years of lubrication experience with that of bearing and The base oil used in greases may be mineral or synthetic. Mineral oils are

Bearings | Mobil™Results 1 - 10 of 35 — Choose the best industrial lubricant for your bearings to help We want to make sure you find the right product for the right EM Series greases are specially formulated for electric-motor bearings. RONEX™ MP is a lithium complex, mineral oil based multipurpose grease that can be used in a wide What are some ways to grease skateboard bearings? - QuoraIn a pinch, motor oil or even cooking oil will work. Wd-40 is a solvent, not a lubricant. Solvents will wear away at the plastic pieces inside the bearing that make the bearing work, and will limit the life of your bearings. Olive oil is not good, but is better than nothing, and is probably better than using a solvent
